## WORK EXPERIENCE

### Salesforce Developer Cloud Certitude Pvt Ltd.

01/2022 - Present

Gurugram, India

#### Achievements/Tasks

- Good Knowledge of SFDC standard Data structures, Designed & developed VisualForce , Aura, LWC, Flows and Proficient in designing of Custom objects, Custom fields, Page layouts, Custom Tabs, Custom Application, Validation Rules, Approval processes, Sharing Rules.
- Developed Apex Classes, Controller Classes, Batch Apex, Apex Scheduler and Apex Triggers for various functional needs in the application and creating Lightning Apps, Lightning Design System, Lightning App Builder.
- Have worked on Salesforce integration with REST APIs like Razorpay, Facebook, Google drive, One drive, WhatsApp, Twitter integration based on project requirement.
- Ability to learn and adopt new technologies and good analytical, verbal, written communication and interpersonal skills.

## PERSONAL PROJECTS

### Seat Booking

- Seat booking is a Client project for booking Events through salesforce. User can book events according to their needs and all available and booked seat are showing with their price and also user can drag drop and resized event. After booking User can pay total amount through Razorpay Payment gateway. In this I used Full Calendar JS library.
- **Tech Stack** : Custom Object, Apex, LWC, CalendarJS, Razorpay.

### Mandala Capital

- The Client is a private equity firm focused on long term and sustainable investments across the food value chain in India and South East Asia. We developed a project and Investment management tool for them on Salesforce platform which contain custom opportunity and custom lead to fulfill their requirement.
- **Tech Stack** : Apex Classes, Triggers, LWC, Aura, Custom Setting.

### Spacify

- The client is a platform in which we perform Project Management work and further treated Salesforce as a database for React app. Created various react components and send data through Salesforce APIs.
- **Tech Stack** : Custom Obj, Apex, VF, ReactJs, Rest APIs, Public Site.
